EDUCATION	**Bachelor of Science in Computer Engineering/Computer Science**	Expected May 2019
	Minor in Mathematics	Expected May 2019
	J.B. Speed School of Engineering, University of Louisville, Louisville, Kentucky	GPA 2.8/4.0
		Hours Completed: 116

SKILLS/COURSEWORK

Programming Languages

- HTML, CSS
- C, C++
- C#, .NET
- Java
- SQL
- Assembly
- Visual Basic
- Swift

Computer Engineering & Mathematics Fundamentals

- Object-Oriented Programming
- Algorithms
- Automata Theory
- Databases
- Operating Systems
- Embedded Systems
- Artificial Intelligence
- Calculus
- Microcomputer Design
- Discrete Math
- Mobile Application Design
- Differential Equations
- Statistics
- SCRUM & Agile Software Development

APPLIED EXPERIENCE

Class Project: Worked with a team to research and design a web app that will manage a user's pantry and search possible recipes based on ingredients within the pantry itself. **Used C# and SQL programming**.

Android Development Project: Developed a "Crystal Ball" application for Android OS. The user would shake or tap the phone, and the program would generate a yes/no response and animate it when displayed. **Used Java and Eclipse IDE.**

iOS Development Project: Developed a database application that keeps track of items within a living space and which household resident they belong to. **Used Swift and XCode IDE.**

WORK EXPERIENCE

Homecare Homebase   January 2016 – August 2018
Software Developer Intern – Financial Development Team   Louisville, KY
- Developed and tested hospice healthcare software and database application
- Team-oriented development environment (Scrum and Agile)
- Made architectural changes to the application to loosely-couple classes

University of Louisville Campus Housing   August 2017 – March 2018
Information Technology Specialist   Louisville, KY
- Worked with a team to manage and troubleshoot corporate hardware and network peripherals within the campus dorms
- Helped conduct interviews for students wanting to become IT specialists for campus housing
